DILITRUST

AI for Corporate and Legal Matters

OUR PROPRIETARY
ARTIFICIAL INTELLIGENCE

Proprietary

Our in-house AI combines proprietary technology with robust security measures, ensuring data control, independence, and confidentiality. Unlike solutions relying on third-party technology, our proprietary AI ensures that you retain control over your data. Also, by using the latest technologies, we empower you with a suite that maximizes efficiency, keeping your operations running with the latest advancements.

Legal Focus

With extensive experience in contract management, board management, document management, and more, **our AI is tailored to address the unique challenges of legal professionals and corporate entities.** Its machine learning algorithms have been meticulously trained over years on legal documents, datasets, and data, ensuring unparalleled accuracy and efficiency in analyzing and processing legal information.

Multi-language

Our AI and OCR technologies support many languages, breaking down language barriers and empowering companies to work on documents in different languages. This multi-language approach, together with automated processes, promotes independence and fast-decision making within teams, facilitating faster workflows and increased productivity.

From a stack of pages to actionable data

Our AI is seamlessly integrated into our suite bringing users transformative capabilities such as:

- Identifying deviation and risks
- Summarizing documents for board members
- Highlighting key information in documents
- Ensuring internal proofreading and approvals

The protection of your data is at the heart of DiliTrust's machine learning activities. Our team has been working on proprietary Artificial Intelligence for years, guaranteeing data security and uncompromising quality. It's paramount for us to stay aligned with our confidentiality and privacy values. Even for generative AI, we're building an in-house LLM to give you access to best-in-class technology in a perfectly secure environment.

Romain Vial - Head of Machine Learning @DiliTrust

Ensuring Your Data Security

At DiliTrust, security isn't just a commitment: **security is our DNA**. Protecting your data is our priority, as a company and through robust security features on our platform.

DiliTrust is ISO 27001, 27701 and SOC 2 certified

Explore our company-wide security measures and the extensive data protection features available on our platform.

Committed to Security

At DiliTrust, we take the security of your sensitive information seriously. It's not just a checkbox, but ingrained in our company culture and operations.

We understand the critical importance of protecting your data. That's why we have implemented comprehensive security measures throughout our organization, making sure your data is safe at all times.

At DiliTrust, we prioritize the protection of your information by integrating a range of advanced security features into our platform. Explore the key security features that enable you to operate with confidence and peace of mind.

- **ISO and SOC Certifications, GDPR compliance**
- **Data Protection Officer (DPO)**
- **Secure Server Locations**
- **Exclusive Data Control**
- **Security Training**
- **Transparent Communication**
- **Continuous Monitoring and Updates**

- **Two-Factor Authentication (TFA) and Single Sign-On (SSO)**
- **Data Encryption**
- **Audit Trail**
- **Watermarks**
- **Access Control and Permissions**
- **Secure Document Sharing and Collaboration**
- **E-signature and Digital Votes**

We are unwaveringly dedicated to data protection principles and committed to complying with data protection regulation, notably through robust data protection and security measures. As the Data Protection Officer, I take on the crucial role of checking compliance with applicable data protection laws and raising awareness throughout the organization.

Marie-Claire Jacob Head of Legal and DPO @DiliTrust

Empower Your Success

Premium Support

Our commitment to your success extends well beyond providing a software solution. Being close to our customers is a priority for DiliTrust. Our Customer Success team is at their the service and offers premium support in the best possible way in all phases of their digitization.

24/7 Availability

Our support team is available round the clock, every day, to assist you. No matter the hour, you can reach out for prompt assistance and resolution of your queries.

Internal Support Team

We maintain an internal support team, to ensure consistent and high-quality assistance directly from our trained staff. By keeping support in-house, we prioritize client satisfaction and truly tailored solutions to meet their needs.

Multi-language

Our support services are available in multiple languages to facilitate effective communication and personalized assistance. We aim to be accessible to all our clients, regardless of their language preferences.

Integrations

DiliTrust tools are designed to integrate with your information system to increase efficiency and data reliability. We provide a diverse range of integrations, seamlessly connecting our platform with your existing tools and systems, to make the most of them and streamline your operations.

Two Types of Integrations for Full Flexibility

Our platform is not just a tool; it's an open ecosystem designed to adapt to your unique needs. With two levels of integrations, we provide the ultimate flexibility for our users. Whether you prefer Plug & Play integrations or tailored ones with APIs, DiliTrust has you covered.
